BUILDING SCALABLE AND SMART MULTIMEDIA APPLICATIONS ON THE SEMANTIC WEB

GRIN Verlag. Paperback. Condition: New. 284 pages. Dimensions: 11.7in x 8.3in x 0.6in. Doctoral Thesis Dissertation from the year 2009 in the subject Information Management, grade: 1, 0, University of Graz, language: English, abstract: The Semantic Web has become reality over the past couple of years. While certain practical topics-such as interoperability, etc. -have at least partially been addressed, scalability and expressivity issues regarding the utilisation of multimedia metadata on the Semantic Web are still widely neglected. However, existing Web (2....

This book might be really worth a read, and superior to other. This really is for all who state there had not been a really worth studying. I am just happy to tell you that this is basically the very best pdf I actually have read through during my very own lifestyle and may be the best ebook for actually.

Very useful to any or all group of men and women. It is written in basic words instead of difficult to understand. I realized this ebook from my dad and dad recommended this publication to understand.
