Hodson and Geddes' Cystic Fibrosis (4th Revised edition)

By Andrew Bush, Diana Bilton, Margaret E. Hodson

Taylor & Francis Ltd. Mixed media product. Book Condition: new. BRAND NEW, Hodson and Geddes' Cystic Fibrosis (4th Revised edition), Andrew Bush, Diana Bilton, Margaret E. Hodson, Cystic Fibrosis 4E provides everything that the respiratory clinician, pulmonologist or health professional treating patients with cystic fibrosis will need in a single manageable volume. This international and authoritative work brings together current knowledge, and has become established in previous editions as a leading reference in the field. The basic science that underlies the disease and its progression is outlined in detail and put into a clinical context. Diagnostic and clinical aspects are covered in depth and future developments, including gene therapies and novel therapies, are covered in the concluding section. Drawing on the expertise of a team of international specialists from a variety of backgrounds, the fourth edition of Cystic Fibrosis is an invaluable reference for respiratory physicians, pediatricians, specialist nurses and other health professionals working with patients with cystic fibrosis. * Divided into accessible sections reflecting the multi-disciplinary nature of the cystic fibrosis care team * Expanded coverage of clinical areas, including chapters covering sleep, lung mechanics and the work of breathing, upper airway disease, insulin deficiency and diabetes, bone disease, and sexual and...
