Orion Publishing Co, United Kingdom, 2001. Paperback. Condition: New. Revised ed.. Language: English . Brand New Book. A cutting-edge exploration of what evolutionary psychology is teaching us of the development and learning of children, in the tradition of Matt Ridley's *The Red Queen* and Steven Pinker's *The Language Instinct*. Learning begins in the first days of life. Scientists are now discovering how young children develop emotionally and intellectually, and are beginning to realize that from birth babies already know a staggering amount about the world around them. In the first book of its kind for a popular audience, three leading US scientists draw on twenty-five years of research in philosophy, psychology, computer science, linguistics and neuroscience to reveal what babies know and how they learn it.
