Maven a Developer s Notebook (Paperback)

By Vincent Massol, Timothy M. O'Brien

O'Reilly Media, Inc, USA, United States, 2005. Paperback. Condition: New. Language: English . Brand New Book. Maven is a new project management and comprehension tool which provides an elegant way to share build logic across projects. In terms of capabilities, Maven is an improvement to Apache Ant-thanks to numerous plug-ins and built-in integration with unit testing frameworks such as JUnit. Tired of writing the same build logic for every project? Using Maven , you can leverage the experience of the community to avoid the tedious process of creating yet another build script for each new project. Maven: A Developer s Notebook begins by introducing you to the concept of project object model (POM), and then offers further details on the essential features of Maven. Like all titles in O'Reilly s Developer s Notebook series, this no-nonsense book skips the boring prose and cuts right to the chase. It s an approach that forces you to get your hands dirty by working through a series of poignant labs-exercises that speak to you instead of at you. Maven: A Developer s Notebook is the first book on the subject to hit the market, so you know the information is...
