Are you looking for a more psychic and intuitive way to live your life and make important decisions? Does living by numbers sound interesting to you? If so, you should give numerology a try. Numerology is a divinatory art that derives guidance from specific numbers and combinations of numbers. It is based on the belief that your numbers and number combinations are cosmically connected to the events that take place in your life. According to numerology, each number has its own cosmic vibration. Adding the corresponding numbers of the letters in your birth name, or the numbers in your birth date can reveal a lot about your character, aptitude, motivations, and your life purpose. Based on your numbers, you can make major decisions, ranging from your career to your relationships and even to the purpose of your life. This book aims at introducing the power of numbers to you and will help you use it to live a more intuitive and complete life.
