Brand New Book ***** Print on Demand *****.Finding out that your guy has an unusual sexual fetish is always a shocking event. Whether you've been married for years, been dating for months or just recently met, most women don't know how to react when they learn their guy gets sexually aroused by something out of the norm. Your immediate thoughts probably range from thinking he's a freak or pervert to feeling lied to and betrayed. You signed up for a normal sex life and now you're faced with the fact that he clearly has a proclivity for something very specific and quite unusual. Don't panic. He's the same, great guy you know and love. He just has a sexual quirk. It's nothing you can't handle. A sexual fetish does not mean the end of your relationship.
