Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Art of Transition in Plato: A Dissertation The method followed in the present paper is one of compromise. Without attempting an exhaustive study of the process of Platonic dialectic, of Plato's methods of sentence connection, or his use of particles, it is the purpose of this discussion to present from the Platonic dialogues adequate material for the illustration of all these methods of approach to the study of transitions. The stylistic basis of arrangement has not been adopted, but changes in transitional method due to differences in style have been noted. The first chapter contains analyses of a number of representative dialogues. In these analyses only so much of the philosophic content of the argument is given as is necessary to make intelligible the outline of the logical and artistic framework of the dialogue. The chief emphasis is placed on the indication and description of the main points of transition in the argument. The two succeeding chapters are devoted to a more minute study of Plato's methods of transition. The second chapter deals with his usage of conventional transitional formulas and includes a brief, incomplete account of Platonic transitional particles. Under the heading plato's literary art of transition more unusual and artistic means of connection have been discussed. Little or no attempt at formal classification has been made. Similar transitional devices are grouped together for purposes of description. The frequent union of several transitional elements in one passage and the difficulty of fixing hard and fast boundaries between different types of transition make any rigid classification impossible as well as useless.
