COSSETANIA EDICIONS, VALLS, 2018. Otros. Condition: New. Dust Jacket Condition: Nuevo. 01. Els arbres són paisatge i vida. Formen boscos, però també ocupen, guarneixen i protegeixen marges, rocams, riberes i deveses. Ens expliquen la seva història natural i tot sovint també la humana: quin tipus de terreny, humitat i clima hi ha, quin ús té i va tenir aquell territori, quina fauna hi viu. Els 101 arbres d'aquesta guia són els que podreu identificar quan sortiu al medi rural i les muntanyes, tant els autòctons com aquells exòtics que ja formen part del paisatge. A les làmines hi ha agrupades espècies properes, similars, o amb elements comuns, dibuixades a escala aproximada. Les fulles permeten reconèixer cada espècie -compareu-ne diverses abans de diagnosticar-, així com daltres elements, també illustrats si sescau: flors, fruits, o borrons. Per a la identificació, a més de la vista cal sovint emprar el tacte i lolor. La forma de l'arbre sencer és molt variable, per això n'hem inclòs només les més distintives. Si no s'especifica, la distribució esmentada al text es refereix a Catalunya. Molta altra informació l'hem recollida en icones: tipus de fulla, període de floració, hàbitat i estatge. Qualsevol estació de l'any, explorant els marges de conreus propers al nucli urbà o el bosc més perdut, deixeu-vos captivar pels arbres. LIBRO.
