## ASSESSMENT OF TANNERY SOLID WASTE MANAGEMENT AND CHARACTERIZATION

Assessment of Tannery Solid Waste Management and Characterization

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Tanning industry generates large quantities of solid wastes during leather processing and subsequently during effluent treatment. From this point of view, in this study assessment on solid waste management practices and physicochemical characterization of the solid wastes generated from tannery were made so that to propose appropriate tannery solid waste management options. The assessment made showed that the types of tannery solid wastes are de-dusted salt, raw skin trimmings, hair, fleshings, splitting...

## Reviews

*Comprehensive guideline! Its this sort of good read. It is actually written in simple terms and never hard to understand. Its been developed in an exceedingly simple way which is just after i finished reading through this ebook where actually changed me, modify the way in my opinion.*

-- **Mabelle Wuckert**

*Basically no phrases to clarify. It really is written in straightforward phrases rather than hard to understand. You will not sense monotony at any moment of your own time (that's what catalogues are for concerning if you ask me).*

-- **Doris Beier**
