Reviews

It is in a single of my personal favorite ebook. It really is filled with wisdom and knowledge I discovered this book from my dad and i recommended this book to discover.

(Kyla Goodwin)

ANNUAL REPORT FY 1985 (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Annual Report Fy 1985 Fiscal Year 1985 marked the implementation of a reorganization of the programs of the National Institute of General Medical Sciences (NIGMS). In order to fully realize the potential of scientific opportunities in the biophysical sciences, a new program area was established, the Biophysics and Physiological Sciences (BPS) Program. It replaced and incorporated the research and research training activities of the former Physiology and Biomedical Engineering Program, as well as those aspects of the other programs which emphasize biophysical studies. Dr. Marvin Cassman was appointed as the Director of this Program. This reorganization, while capitalizing on the rapid growth in the biophysical sciences, also allowed for a better balance among the various programs. In addition, a very large number of the Institute staff have responsibilities in more than one program area, thus enhancing the collaborative and cooperative efforts among the programs. This is particularly important in an Institute which supports basic research in the sciences which will ultimately be of importance to the missions of the other institutes of NIH. For it is clear that the research supported by NIGMS is a continuum which, for administrative neatness, must be divided into discrete program areas but which dovetail and flow into each other. Thus the collaboration among the staff is of great importance to the total enterprise. The scientific opportunities in the biomedical area continue to increase, and the NIGMS remains dedicated to supporting primarily investigator-initiated research as well as multidisciplinary research training of the highest quality. This is best illustrated by citing the support that the Institute provided in the mid-1970 s for the study of steroid receptors on the cell membrane...
