Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from An Address Delivered Before the Association of Alumni of Yale College The excellence of the English university system rests not then on its furnishing a thorough scientific education; this is neither its avowed nor its real design. It fits the sons of the aristocracy and hundreds also from other classes, annually, for an entrance upon active life in Eng land; each to take the sphere which is then assigned to him, or to force his way to a still higher one by his own intense efforts, in the most artificial state of society which exists on earth. The standard, whether elevated or low, has been graduated for England alone: the tutor instructs, and the pupil studies, usually with no other aim.
