

Hazard Communication Guidelines for Compliance

By Occupational Safety and Health Administration

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 36 pages. Dimensions: 9.0in. x 6.0in. x 0.1in. OSHA's Hazard Communication Standard (HCS) is based on a simple concept that employees have both a need and a right to know the hazards and identities of the chemicals they are exposed to when working. They also need to know what protective measures are available to prevent adverse effects from occurring. OSHA designed the HCS to provide employees with the information they need to know. Knowledge acquired under the HCS will help employers provide safer workplaces for their employees. When employees have information about the chemicals being used, they can take steps to reduce exposures, substitute less hazardous materials, and establish proper work practices. These efforts will help prevent the occurrence of work-related illnesses and injuries caused by chemicals. The HCS addresses the issues of evaluating and communicating chemical hazard information to workers. Evaluation of chemical hazards involves a number of technical concepts, and is a process that requires the professional judgment of experienced experts. That's why the HCS is designed so that employers who simply use chemicals rather than produce or import them are not required to evaluate the hazards of those...
