THE NATURE OF THE POST-COLD WAR WORLD

Bibliogov, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The editors of the nation's two leading journals on foreign policy were asked to examine the nature of the post-cold war world and America's transitional role. Charles Maynes reviews the major transitions that marked 45 years of Soviet-American strategic confrontation. Predictably, the U.S. global role and defense resources are declining as old threats decrease and domestic problems move higher up on the policy agenda. Economic power is essential to America's future and the country faces the difficult task of economic recovery while avoiding the political expedience of protectionism or other forms of belligerence toward our trading partners. This would accelerate international fragmentation, undermining the political trends toward a collective security regime that is vital to the...
