Medical Reports Volume 40-50

By China Hai Guan Zong Shui Wu Si Shu

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1894 Excerpt: . of the fall was registered on two days, the 8th and 18th. April, May and June were calm, only two short heavy blows having occurred in April and one in June. The wind hardly stirred along the coast in May. Neither temperature nor rainfall departed very widely from the average. The mean degree of heat was nearly uniform throughout April, except for one burst of exceptionally high temperature between the 21st and 26th, during which the weather would have been perfectly dry but for a short hail storm on the 22nd. The maximum temperature for April was 82 (on the 23rd); the minimum (on the 6th) was 36.3. The rainfall was 28 per cent, below the average. In May there were no periods of wide range of temperature. The maximum, 86, was recorded on the 23rd; the minimum, 457, on the 3rd. There were five...

Very useful to all category of men and women. I actually have study and i also am certain that i am going to going to read through again once more down the road. Its been written in an exceptionally simple way and is particularly only soon after i finished reading this publication by which basically altered me, modify the way in my opinion.
