Wood Carving: Projects and Techniques

By Pye, Chris

Fox Chapel Publishing, 2008. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Sound, technical advice is the first order of business in this collection of several excellent articles and 24 projects from Woodcarving magazine. Far from being just a selection of patterns, this guide reviews the fundamentals of the craft and is addressed to carvers of all skill levels. Special attention is paid to the finicky V-tool, which suffers from a reputation for being difficult to use, and carvers are also instructed on how to sharpen tools properly, choose the perfect wood, apply a variety of finishes, and work with gold leaf. The projects include pineapple finials, decorative moldings, and signs with carved lettering; challenging advanced work is to be found in plans for an eagle-decorated lectern and a seated Buddha. Color photos illustrate the step-by-step directions for all projects, and sidebars offer tips for success. Chris Pye is a professional woodcarver and a member of the Master Carvers Association. He is the author of Elements of Woodcarving and Woodcarving: Tools, Materials & Equipment.

This is the very best publication we have read through right up until now. It is one of the most incredible book we have read through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
