Oxford University Press. Paperback. Condition: New. 320 pages. Is there anyone on earth who is so narrow-minded or uninquisitive that he could fail to want to know how and thanks to what kind of political system almost the entire known world was conquered and brought under a single empire in less than fifty-three years --Polybius, *Histories* The 53-year period Polybius had in mind stretched from the start of the Second Punic War in 219 BCE until 167, when Rome overthrew the Macedonian monarchy and divided the country into four independent republics. This was the crucial half-century of Romes spectacular rise to imperial status, but Roman interest in its eastern neighbors began a little earlier, with the First Illyrian War of 229, and climaxed later with the infamous destruction of Corinth in 146. Waterfields fast-paced narrative focuses mainly on military and diplomatic maneuvers, but throughout he interweaves other topics and themes, such as the influence of Greek culture on Rome, the Roman aristocratic ethos, and the clash between the two best fighting machines the ancient world ever produced: the Macedonian phalanx and Roman legion. The result is an absorbing...
