Reviews

These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

In a world gone insane, horror hostess Wicca struggles to keep her irreverent show on the air. The thought police are bearing down hard. But equipped with crystal skulls giving her goddess-like power, Wicca engages them in a hilarious back and forth slugfest. Along with Queenie, mistress of cyborgs, she contends with a secret government agency, bizarre laws aimed at shutting down her show, and shadowy elites setting up the one-world order squarely in Wicca's satirical target sights. Meanwhile Team Dan, five friends from Earth, are still celebrity super heroes on the parallel world Wicca hails from. The empire of Eolca hears rumors of a new continent, and wants the team to escort a scientist couple on a risky teleport jump. Once there, they find ancient teleports pre-set to each other, and there seems no way back. As they jump from one nightmare realm to another, they face the decision to try a crazy magic bottle which may land them on a different world altogether.
