FOURIER ANALYSIS ON LOCAL FIELDS. (MN-15) (PAPERBACK)

Princeton University Press, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. This book presents a development of the basic facts about harmonic analysis on local fields and the n -dimensional vector spaces over these fields. It focuses almost exclusively on the analogy between the local field and Euclidean cases, with respect to the form of statements, the manner of proof, and the variety of applications. The force of the analogy between the local field and Euclidean cases...

Reviews

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).
