Reviews

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).

Not illustrated. 1880 Excerpt: .for foot-power; and the Patent Bookrounding Machine, for hand or steam power. Brown (benjamin George Co.), 44, Collinpvood Street, Blackfriars Road, S.E.--Lubricators. (Stand 98.) Clowes (william George), Stamford Street, S.E.--Hooker s Type-Composing Machine, and Clowes s Machine for Blackleading Electrotype Moulds. In the Type-Composing Machine the discharge of the types from the troughs is effected by means of a range of small electro-magnets, placed one behind each trough, and in connection with metal contact-plates, at which the compositor operates. These contact-plates are of different sizes, being, in fact, as to comparative size, shape, and arrangement, a copy of the ordinary lower case. Before these contact-plates, as before a desk, the compositor sits and proceeds much as he is accustomed to do: only that, instead of picking out the types from the boxes of his case, he touches in succession the corresponding contact-plates with a wire pointer, which he holds in his hand like a pen. The touch instantly makes the magnetic contact, and the letter is set free to go on its way to the collector. The process of touching the contact-plates is limited only by the rate at which the copy can be mentally spelt; and to facilitate this spelling, a sliding copy-holder is employed, by which the line of copy which is being read is kept always at the same level, and the compositor can concentrate his attention on the copy. He thus soon becomes so used to the contact-plates, that he estimates their...
