Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.An historical writing that hypothesizes that the New Testament is not proof that Jesus was the son of God and sent by him to save man from his sins. The writer refers to the Old and New Testaments of the Bible, other Religions, Biology, Genetics, Science, Astrology, Energy and Anthropology to prove his case. This is a must read for anyone who has ever asked How do we know there is a God as well as those who have been believers. This book theorizes that the Old Testament spoke more of the universal building blocks of all of creation and life that operates at every level of our existence than of a Christian moral code of ethics. The New Testament brought with it a call to separate humanity from our connection with the Game Master God, our Guardian of Data, and to instead follow one who is in direct opposition to life s ultimate goal. The imbalance between the Masculine and the Feminine at every level keeps the conflict alive and was spoken of in the book of Genesis in the Old Testament, hidden in plain sight.
