Reviews

It is one of my personal favorite books. It is one of the most incredible ebooks I have ever gone through. You will not feel monotony at any moment of your own time (that's what catalogues are for relating to if you ask me).

The professionals use a whole range of financial instruments to tune their portfolios to the markets. There is no reason why private investors can't do the same. This book helps you to use these tools to tailor your portfolio, by identifying your risk and vulnerabilities and knowing where to go from there. The emphasis of the book is on equipping the investor with enough knowledge of the different tools at your disposal to be able to use the right ones at the right time to minimize losses and maximise gains. 264 pp. Englisch.
