

Slaves to Neurons: Are We Different from Machines? (Paperback)

Filesize: 9.47 MB

Reviews

The publication is great and fantastic. It can be filled with knowledge and wisdom You wont truly feel monotony at at any moment of your time (that's what catalogues are for about if you ask me).

(Dr. Marcos Grimes III)

SLAVES TO NEURONS: ARE WE DIFFERENT FROM MACHINES? (PAPERBACK)

AUTHORHOUSE, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Pete McRae, a robotics software programmer with a background in genetic engineering and neuroscience believes machines, in the very near future, will not only have the ability to think but will also have emotions. He is so obsessed with this belief that at times he cannot distinguish between biological life forms and machines. This strong belief and developments in the fields of robotics, neuroscience and nanotechnology lead him to develop a robot with an electronic brain that has the capabilities of a human brain. Could this mechanical brain think and feel like a human brain? The results of his experiment are not only shocking but they also bring back painful memories of his past. What does he learn about love and other emotions that go with it? Does he prove machines can have emotions and, dare we say, consciousness? What does his finding mean to the future of machines? Or for that matter, the future of biological life forms as we know them today?.
