As a result of these evils of developments, they are terrible in the vicious circle of poverty.²⁸⁶ Micro-finance is a push factor that enables the poor to work to get out of poverty. Its application can be viewed from a long-term perspective and its benefits go beyond development through credit for poverty alleviation. The present study identified that micro-finance provision highly contributed for the community in general and the women households in particular. It enables them to engage in the new economic movements which created employment and improves their incomes, increase their participation in decision makings, improved their life standards and finally ensures their empowerment.
