The beautifully illustrated *Designing Gardens with Flora of the American East* approaches landscape design from an ecological perspective, encouraging professional horticulturalists and backyard enthusiasts alike to intensify their use of indigenous or native plants. These plants, ones that grow naturally in the same place in which they evolved, form the basis of the food web. Wildlife simply cannot continue to survive without them-nor can we. Emphasizing the importance of indigenous plant gardening and landscape design, Summers provides guidelines for skilled sowers and budding bloomers. She highlights . . .
