The history of Greece and Rome is taught in all schools professing to give a liberal education, but this is often done to the entire exclusion of the other nations of antiquity, which, though they did not exercise an equally powerful influence either upon their contemporaries or upon posterity, yet ought not to be passed over by any one desirous to obtain a complete view, and form a correct estimate, of the ancient world. The present manual, therefore, embracing the history of all the nations of antiquity, is designed to present to the student, besides the histories of Greece and Rome, an outline of that of the non-classical nations, and to devote to each of them as much attention as their historical importance may seem to demand.
