Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from An Introduction to General Psychology The chief motives for the writing of the present book were two. The first of these was to supply a general elementary text-book which would meet the demands of the average student beginner a little more adequately than has been done hitherto. After ten years experience in teaching a first course in Psychology, I have become convinced that the mode of attack usually followed fails to supply the student with the sort of introduction into the science of mind that will enable him, on the one hand, to connect his Psychology with every day life, and, on the other hand, to apprehend the bearings of this science upon Philosophy, Education, Sociology and Biology. It has been my experience that so much time was consumed in the study of the nervous system, and of the experimental data of sensation and perception, that in a brief course no adequate consideration could be given to mind as a whole, and to the important topics of personality and character. To introduce a student to the study of Psychology is one thing, and no doubt the detailed study of psychophysiological data, with their appropriate laboratory exercises, is a most satisfactory means to this end. But the function of Psychology in an undergraduate college course is another thing, and is not purely departmental. The average student does not go beyond the first brief course. He does, however, frequently elect further work in Philosophy and Education, Sociology and Biology. In coming to these subjects he should bring with him psychological conceptions of a general sort that will be useful to him. It is the consciousness of this need which has...
