CAPACITY MANAGEMENT FOR PACKET-SWITCHED NETWORKS

LAP Lambert Acad. Publ Sep 2010, 2010. Taschenbuch. Condition: Neu. Neuware - Communication services such as electronic mail, file transfer, web browsing, online chat, IP telephony and real-time video are frequently used in today's life. To provide these services with a good quality of service, the capacities of the network links should be large enough to prevent data traffic to be delayed. The book focuses on the problem of dimensioning a link in a communication network which carries data of..

Reviews

It in just one of the best publication. This can be for anyone who statte that there was not a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Tara Jerde**

Just no words to explain. Indeed, it is actually play, nevertheless an amazing and interesting literature. Its been written in an exceptionally simple way and is particularly simply following i finished reading through this ebook by which in fact altered me, alter the way in my opinion.

-- **Leilani Rippin**

It in a of my personal favorite pdf. Of course, it really is play, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
