Copernicus. Paperback. Book Condition: New. Paperback. 199 pages. Dimensions: 9.1in. x 6.1in. x 0.6in. This lively and practical introduction to the mathematics of money invites us to take a fresh look at the numbers that underpin our financial decisions. Morton D. Davis talks about strategies to use when we are required to bet against the odds (purchasing auto insurance) or choose to bet against the odds (wagering in a casino or at the track). He considers the ways in which we can streamline and simplify the choices available to us in mortgages and other loans. And he helps us understand the real probabilities when we accept a tip on that one in a thousand stock, even when the tip comes from a successful day trader. With a wealth of entertaining and counterintuitive examples, *The Math of Money* delights as well as informs, and will help readers treat their financial resources more rationally. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
