Hay House Inc. Paperback. Condition: new. BRAND NEW, One Mind: How Our Individual Mind is Part of a Greater Consciousness Andwhy it Matters, Larry Dossey, In the 20th century, we were introduced to several subdivisions of the mind: the conscious, unconscious, subconscious, preconscious, and so on. But what we didn't know was that there was another level of consciousness, an all-encompassing, infinite dimension of shared intelligence: the One Mind. This universal consciousness connects all of us through space and time. Emerging studies have shown that the One Mind isn't just an idea; it's a reality. In this book, Larry Dossey shares compelling experiences and research that support the One Mind concept, such as: Shared thoughts, emotions, and physical sensations with a distant individual Communication between humans and sentient nonhumans, such as pets Acquisition of previously unknown knowledge from a person who has died Hidden or lost objects found through mental means alone Direct contact with a transcendent domain through near-death experiences Through engaging stories, fascinating case studies, and brilliant insights from great thinkers throughout history, One Mind explores the outer reaches of human consciousness. In it, you will discover a new way to interpret the great mysteries of our experience and learn how to develop the empathy necessary to engender more love, peace, and collective awareness. The result is a rich new understanding of what it means to be human and a renewed hope that we can successfully confront any challenges we face. He reveals our deep connections to everything around us, to reassert our belonging with everything everywhere.' Rev. Wayne Muller,...
