Brand New Book ***** Print on Demand *****.Few Englishmen or Englishwomen are intimately acquainted with the little town of Le Puy. It is the capital of the old province of Le Velay, which also is now but little known, even to French ears, for it is in these days called by the imperial name of the Department of the Haute Loire. It is to the south-east of Auvergne, and is nearly in the centre of the southern half of France. But few towns, merely as towns, can be better worth visiting. In the first place, the volcanic formation of the ground on which it stands is not only singular in the extreme, so as to be interesting to the geologist, but it is so picturesque as to be equally gratifying to the general tourist. Within a narrow valley there stand several rocks, rising up from the ground with absolute abruptness. Round two of these the town clusters, and a third stands but a mile distant, forming the centre of a faubourg, or suburb. These rocks appear to be, and I believe are, the harder particles of volcanic matter, which have not been carried away through successive ages by the joint agency of water and air.
