Stephen F. Austin State University Press, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book. With a population of close to 25 million and a size greater than many independent countries, Texas is home to an incredible variety of vibrant musical communities. Contemporary art music flourishes in disciplines ranging from experimentalism to concert music to film-scoring. While cataloguing the full extent of composing and performing in this diverse landscape would be a near-impossible task, it is our hope that this volume (and others that will follow) will begin to fill the conspicuous gap in the materials currently available. Our decision to focus this first edition on thirty representative composers, along with some organizations and academic degree programs, was simply a result of needing a practical and achievable place to start. Texas is home to world-class symphonies, opera and ballet companies, performing venues, and countless other performers and ensembles that regularly feature new works. We hope that future editions will allow us to expand to include these things, as well as additional information such as recordings available and competitions within the state.
