Eye of the Storm: How Mindful Leaders Can Transform Chaotic Workplaces is a call to action for business and organizational leaders. Williams cites problems such as relentless demands and extreme pressure placed on both leaders and workers, explaining the harm that recurring waves of job cuts and globalization do to the corporate structure as they lower employee loyalty and job satisfaction. But Williams doesn't just detail the problem-he presents steps on how to fix it. Arguing how leaders need to become more mindful and take steps to engage their employees in more meaningful work, he also lays out ways in which businesses can create environments where workers are creative, happy, and productive. Williams combines science-backed research with practical strategies for individuals and organizations in this practical guide that can transform workplaces. Considered one of Canada's top executive coaches, he draws from more than thirty-five years of experience as a CEO and senior executive to show leaders how to leave the toxicity behind.
