Textbook of Influenza (Hardback)

By Robert G. Webster, Arnold S. Monto, Thomas J. Braciale

John Wiley and Sons Ltd, United States, 2013. Hardback. Condition: New. 2nd Revised edition. Language: English . Brand New Book. The Textbook of Influenza is a comprehensive resource covering all aspects of influenza, from the genetic and molecular biology of the virus through to clinical aspects of the disease and the latest drug developments and treatments. This new edition has been completely revised and reflects the integration of disciplines concerning the emergence, evolution, pathogenesis and control of influenza viruses in the field of human and veterinary public health. Textbook of Influenza examines the lessons learnt from the latest pandemic and provides the current state of knowledge for many yet unresolved issues related to virus origin, spread, pathogenesis and disease severity to better prepare for future pandemics. It covers the background to recent advances in influenza genomics and reverse genetics which have allowed the identification of virus virulence factors and the analysis and reconstruction of influenza viruses such as the 1918 Spanish flu strain. This new edition is divided into eight key sections, containing chapters co-written by international experts from both the clinical and scientific communities, covering: Influenza Perspectives Structure and Replication Evolution and Ecology Epidemiology and Surveillance Immunology Vaccines and...
