Excerpt from The Book of Vegetables and Garden Herbs: A Practical Handbook and Planting Table for the Vegetable Gardener This book is designed to be of assistance to all who have to do with vegetable seeds, whether as buyers or as seller. When a beginner in vegetable-gardening, I was painfully aware of my need of a convenient and reliable planting-table, giving particular directions for the culture of all vegetables. I should have been saved mistakes both ludicrous and vexatious by such a book, the general value of which I can best illustrate by a quotation from the English Book of Asparagus, by Charles Iltott (the John Lane Company, publishers). The author tells the following: Only a few weeks ago I was in a garden where there was a large bed of salsify. The owner was not satisfied with the plants, and told me he had changed his seedsman, because the salsify was poor and straggling. I examined the bed, and counted eight plants to the foot run. I turned to the other side of the bed, where broccoli was planted, and found them a foot apart from row to row and less in the rows. They were about three feet high, so I said, Your broccoli is also a failure. Yes, he said, no more seed from Messrs. So-and-so. I said, Are you not blaming your seedsman for your own ignorance?
