Brand New Book ***** Print on Demand *****.Excerpt from The Larvae of the British Butterflies and Moths, Vol. 1 It is the first instalment of the entomological remains of the late William Buckler. William buckler was by profession an artist, devoting himself especially to painting portraits and mainly to miniatures. The improvements in photography slowly but surely destroyed the occupation of the painter of miniatures, and William Buckler found when he reached middle life that what had hitherto been his occupation was at an end. In 1857, the artist who had been for some years depicting the larvae of micro-lepidoptera for the Natural History of the Tineina abruptly discontinued that work and it became necessary to find, with as little delay as possible, a fresh artist. An urgent appeal was made in the Entomologist's Weekly Intelligencer, of July 11th, 1857 (vol. II, p. And in answer to that call for help William Buckler replied and offered his services, which were thankfully accepted. He was then residing near Ems worth in South Hampshire (on the very borders of Sussex), and had been for some years devoting his attention to entomology.
