THE first edition, which has been out of print for many years, has undergone a complete revision in the present volume. The author has endeavoured to make its contents as concise as possible, and suitable for practical require- ments. For this reason a number of dyed patterns with the corresponding recipes have been added, as these are of greater value than written explanation. The use of the coal tar colours most extensively employed in paper-making is exhaustively dealt with. Special attention has been paid...
