What's Your Evidence?: Engaging K-5 Children in Constructing Explanations in Science (Mixed media product)

By Carla L. Zembal-Saul, Katherine L. McNeill, Kimber Hershberger

Pearson Education (US), United States, 2012. Mixed media product. Book Condition: New. 229 x 185 mm. Language: English . Brand New Book. By providing a variety of strategies, scenarios, student samples, classroom video clips from across all science content areas, rubrics, and guidelines this book provides teachers with the tools to successfully support young scientists to use evidence to construct scientific explanations. With the view that children are capable young scientists, authors encourage science teaching in ways that nurture students curiosity about how the natural world works including research-based approaches to support all K-5 children constructing scientific explanations via talk and writing. Grounded in NSF-funded research, this book/DVD provides K-5 teachers with a framework for explanation (Claim, Evidence, Reasoning) that they can use to organize everything from planning to instructional strategies and from scaffolds to assessment. Because the framework addresses not only having students learn scientific explanations but also construct them from evidence and evaluate them, it is considered to build upon the new NRC framework for K-12 science education, the national standards, and reform documents in science education, as well as national standards in literacy around argumentation and persuasion, including the Common Core Standards for English Language Arts (Common...
