Clinical Neurophysiology Board Review QA

By Puneet Gupta Md Mse

Demos Medical Publishing. Paperback. Condition: New. 560 pages. Dimensions: 0.0in. x 0.0in. x 0.0in. This high yield, illustrated clinical neurophysiology board review is a comprehensive resource for assessing and refining the knowledge tested on multiple board examinations. Written by authors who are collectively board certified in all of the areas covered, the book is a valuable study tool for candidates preparing for certification or recertification in neurology, clinical neurophysiology, neuromuscular medicine, sleep, and epilepsy. Using structured question formats typically encountered on boards, this comprehensive review allows users to assess knowledge in a wide range of topics and provides rationales for correct answers and explains why the other choices are incorrect. A unique Pearls section at the end of the book allows for quick review of the most important concepts prior to exam day. Clinical Neurophysiology Board Review Q and A contains 801 questions with answers and detailed explanations. The book is divided into eight sections covering anatomy and physiology, electronics and instrumentation, nerve conduction studies and EMG, EEG, evoked potentials and intraoperative monitoring, sleep studies, ethics and safety, and advanced topics including QEEG, MEG, TES, autonomic testing and more. Liberal use of image-based questions illustrating the full spectrum of neurophysiologic tests...
