Aviation Supplies Academics Inc, United States, 2015. Hardback. Condition: New. Language: English . Brand New Book. The Standard UAS Operator Log provides record-keeping for flight operations of small and large unmanned aircraft systems (UAS) or unmanned aerial vehicles (UAV), remote-control aircraft (R/C), remotely piloted aircraft (RPA), and drones. It meets the needs of civilian, military, hobbyists, and professional operators alike so that critical flight details can be tracked. The logbook has sufficient room for more than 300 flights with space to record the equipment details, location, aircraft category, flight conditions, type of operating time, number of takeoff/launch and landing/recovery, and the total duration of the flight. The remarks area provides space to note the mission, crew, control method (such as RC, first person view or RPV and autonomous), battery number and configuration or other information to correlate to the flight controller mission logs. It also includes a summary page for owner/operator (such as contact details, certificates and ratings, and recurrency training), a briefing/academic instruction log, a page for equipment and hours flown, and initial and recurrent training endorsements.
