Cambridge University Press. Paperback. Book Condition: New. Paperback. 260 pages. Dimensions: 8.8in. x 6.0in. x 0.9in. This volume brings together eight original essays designed to provide an overview of developments in spatial voting theory in the past ten years. The topics covered are: spatial competition with possible entry by new candidates; the heresthetical manipulation of vote outcomes; candidates with policy preferences; experimental testing of spatial models; probabilistic voting; voting on alternatives with predictive power; elections with more than two candidates under different election systems; and agenda-setting behavior in voting. Leading scholars in these areas summarize the major results of their own and others work, providing self-contained discussions that will apprise readers of important recent advances. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
