Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The options available to dental surgeons for the treatment of the atrophic ridges are expanding at a rapid pace. Although any one modality may help, often a combination of approaches provides the most dramatic results. There is no consent as to which treatment modality is superior to the other in literature. The decision to opt for either of the options, therefore, depends upon patient factors, and ultimately, the expertise and skill of the clinician. | Format: Paperback | Language/Sprache: english | 80 pp.
