Zhineng Qigong: The Science, Theory and Practice

By Ooi Kean Hin

Createspace, United States, 2010. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.While the title is Zhineng Qigong, I believe this book is a good reference for many other forms. What is qi? Ancient qigong masters propounded that there is a finest matter in the universe with no shape or form, that cannot be seen by the naked eyes and that was found at the very beginning of the universe. Some called it dao, some taiji, some yuan qi; we call this finest element primeval hunyuan qi. From this finest element of matter everything in the universe is formed. Take a look at modern physics. High school students now learn that at the molecular level all matter is made up of protons, neutrons and electrons. In university study, they learn that in protons and neutrons there are quarks and within quarks there is a smaller element - the top quark. In 1998 a group of astrophysicists conducted research in Japan and confirmed that neutrinos are an even smaller element of matter in the universe, much smaller than an electron. In September 2008 the underground collider in Switzerland tried to recreate...
