Createspace, United States, 2011. Paperback. Condition: New. MR Hugh F Colmer (illustrator). Language: English . Brand New Book ***** Print on Demand *****.The Galactic SuperWave Tarot is a language of symbols and images. If you want to break out of the Matrix and have a spiritual awakening it is necessary to integrate and experience the 22 archetypal images of the Galactic SuperWave Tarot. Quantum theory hints at the possibility that what we take for our reality is actually composed of a reality that is totally vibrational in character; simply an illusion which makes our everyday life seem practical and logical. Human DNA is a biological Internet with evidence that DNA can be influenced and reprogrammed by images, words and frequencies. This suggests that our DNA is not only responsible for the construction of our body, but also serves as data storage and communication. Russian scientists and linguists have found that the genetic code follows the same rules as all our human languages. In effect, human language did not appear coincidentally but is a reflection of our DNA. If you want to change your life it is essential to change the frequencies of the DNA that function within the cells of the body. Thoth-Hermes created the 22 major arcana to resonate with the harmonic resonance that sustains higher consciousness. God or the Galactic Center encoded a holographic blueprint at the moment of conception. The blueprint is analogous to computer software which attracts viruses from the negative influences of the Matrix. Immersing yourself in the imagery of these archetypes will deter the ego from wasting its energy by resisting what you came here to do. Imagine becoming a multi-dimensional being with psychic, telepathic, and creative abilities beyond anything you've ever dreamed of.
