

Electricity as a Motive Power (Classic Reprint) (Paperback)

By Théodose du Moncel

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Electricity as a Motive Power Definitely continued, which can only be obtained from water falling from a height. The progress Of human industry, besides, necessitated motors capable of being placed where their want was felt, and whose power could be developed in any proportion and at any time that might be required; in fact, that they should be entirely subservient to human will. This problem in past ages formed an incentive to inventors, and led to the search for perpetual motion, for which, even in these days, some illusionists still strive; but when it was understood that, in obtaining such a result, one of the great laws of nature (equilibrium) could not exist, healthy minds could only look to physical actions for the solution Of the problem and it was Denis Papin who opened the way by discovering the expansive power of steam, and himself constructed a motor founded on this principle. The history of this magnificent discovery is well known, and the immense resources which steam-engines have given us. To recount them would be to give the history of all...
