Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.As humanity has spent more and more time on earth, we have begun to understand better, albeit in little bits, our world and its impact on us. Astrology is perhaps the most ancient of all arts, beginning in Babylon and enjoying, over time, some Hellenistic cultural edits, but its accuracy has never been in doubt, giving birth to the zodiac signs and their use in the classification of people. The zodiac signs are the relationship between celestial phenomena and human activities. Therefore, it is believed that things generally happen as above, so below. If you are reading this, you know what zodiac signs are, so we won't dwell too long on it. You've also maybe heard of the twelve signs and how they can be the key to deciphering why people behave the way they do, but haven't exactly seen this broken down before. Well, here it is. A person's zodiac sign just about describes who they are in relation to the universe. We are talking descriptions as superficial as favorite colors down to the deep, hidden details like the nature of their individual souls. In this book, we will begin from Aries - where the sun begins its cycle at the spring equinox. So, buckle up.
