Forgotten Books, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Scope: January, 1938 In 1923, I took the California examination and a few days later received a letter from the then Secretary, Dr. T. A. Brombach, in which he says, Good news for you, about fifteen to twenty will pass out of one hundred and ten. You are one of the leader-s. My California license, No. 1678, is also in full force and effect. Dr. Gruman takes me to task for stating, The diagnosis and treatment of disease should be limited to those who are qualified, because our opponents formerly argued, ophthalmoscopy and refraction should be limited only to those who are qualified. Both statements are logical and unimpeachable. Optometrists are or should be qualified in ophthalmoscopy and refraction and now have full rights in this field. If they ever become qualified in the diagnosis and treatment of disease, they will then be physicians and should practice as such, under the laws of the respective States, and they will then be subject to the Medical Practice Acts and not to Optometry Laws.
