Complete guide! Its such a great study. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Citizenship and Immigration Services (USCIS) is responsible for granting or denying immigration benefits to individuals. USCIS charges fees for the millions of immigration applications it receives each year to fund the cost of processing and adjudicating them. In February 2007, USCIS completed a study to determine the full costs of its operations and the level at which application fees should be set to recover those costs. USCIS's new fee schedule increased application fees by a weighted average of 86 percent. Almost 96 percent of USCIS's fiscal year 2008 budget of 2.6 billion was expected to have come from fees. GAO was asked to review the methodology USCIS used in its fee review and controls in place over collection and use of fees. In this report, GAO addresses the consistency of the methodology with federal accounting standards and principles and other guidance, including whether key assumptions and methods were sufficiently justified and documented. The report also addresses internal controls USCIS has in place over the collection and use of fees. This item ships from La Vergne, TN. Paperback.
