Hardback. Book Condition: New. Not Signed; Now introducing Kick! , which does for kids what Gallop! does for animals - one child rides a bike, another kicks a football, a swimmer cuts through the water, and a skater pirouettes on ice. The effect is joyous, magical, mesmerizing, and perhaps even more compelling than Gallop! Because of the endless fascination that children find in watching other children. The second book created by Rufus Butler Seder, the inventor, artist, and filmmaker who developed Scanimation out of his obsession with antique optical toys and other pre-motion-picture illusions, Kick! uses 'persistence of vision' and a patented state-of-the-art multiphase animation process to create astonishment. There is nothing else like this unique, patented technology that literally inspires wonder. The images burst with activity, and adding greatly is a happy, rhyming text that captures in words, the pure energy of the figures in motion. You can't put it down. book.
