Packt Publishing Limited, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Learn how to create dynamic full-stack applications with ReactJS and other leading JavaScript tools - smarter web development starts here About This Book * Harness the impressive power of ReactJS and rethink full-stack web development * Build dynamic web applications using the tools created by the innovators driving the tech industry * Combine the powers of React, Node, MongoDB, and Falcor to create highly scalable real-time apps. Who This Book Is For This book is for JavaScript developers who want to create highly scalable, enterprise-grade apps. Basic knowledge of React.JS is necessary; however you do not need detailed knowledge of the other stack components such as Node.JS, Express, MongoDB, or Falcor. What You Will Learn * See how to build a full-stack app that is scalable and designed for the demands of modern users * Create a powerful JWT-based authentication full-stack starter-kit * Make your app extremely stable and resilient with Redux and its immutable single state tree * Explore the new possibilities given by Falcor, the middleware built by Netflix * Find out how Redux works alongside ReactJS - and how it makes building an isomorphic app easier * Deploy and maintain your apps successfully using Docker and AWS In Detail Full-stack web development is being redefined by the impact of ReactJS. If MEAN demonstrated just how effective combining JavaScript frameworks and tools could be for the modern web developer, by replacing Angular with React, developers have an easier way to build isomorphic web applications where code can run on both the client and server. This book will get you up to speed with one of the latest strategies to meet the demands of today s dynamic and data-intensive web....
