FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Cotton Situation: October-November, 1945 While the favorable prices at which cotton is now selling domestically assure farmers a good return from their 19h5 crop, they have the effect of making it more difficult to sell cotton for export. With the subsidy rate at 11.00 cents a pound, as it has been since mid-november of 19mh when it was first announced, the price of Middling inch cotton at New Orleans on October 6 was cents per pound, or 160 points higher than the average for the M weeks preceding the announcement of the export payment rate. At the same time that American cotton has risen 160 points the price of Brazilian cotton at Sao Paulo has decreased 12 points, the price of Middling inch cotton at torreon, mexico has declined 82 points, Peruvian Tanguis cotton at Lima has risen 53 points, and Karnak cotton at Alexandria has risen 96 points. Consequently, American cotton is priced for export from 59 to 2h2 points less favorably relative to the prices of other growths than initially after the announcement of the current subsidy rates last November. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
